Please read our information carefully to help you decide if this CSA is right for you. Fill out this form and mail it to North Pulaski Farms, 13000 Ellen Cove, Cabot AR 72023.

We use email as our primary way to get information to you and will not share your email address with anyone. You may include multiple email addresses and please update us if they change.

North Pulaski Farms LLC CSA program is a farm managed direct relationship between you and our farm. Weekly May-Jul 2018 for 12 weeks crates of seasonal produce are harvested at the height of ripeness and delivered to one of our local farmers markets in central Arkansas or may be picked up at our farm in Cabot.

Because of the inherent risks of farming, we cannot guarantee what the season will bring and what vegetables will be harvested. Having grown fruits and vegetables in central Arkansas for over 9 years and being experienced in food production, we have always succeeded in growing an excellent variety of organic fruits and vegetables. You share the risk with us as sometimes you will receive more or less than you expected of certain items, but we will do everything we can to raise successful crops. The items in your produce share will change weekly as reflected by the changing seasons and what can be successfully grown organically in central Arkansas. Occasionally we work other Certified Organic Farms to ensure a good variety of items.
